AMENDMENT

Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

This is in response to the official action of March 27, 2001.

In the specification, page 1, last line, the patent number "5,548,538" should read -- 5,458,538--

A replacement for page 1, incorporating this change is provided herewith.

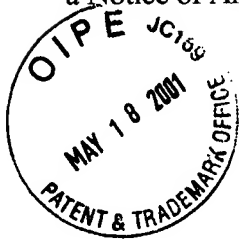

With respect to the rejection of claims 1-3 on the grounds of double patenting over US patent 6,149,517, a Terminal Disclaimer is provided herewith in order to obviate this rejection, although the appropriateness of the rejection is respectively contested in that the acknowledged differences in the claims render the claims patentably distinct from those of the '517 patent.

It is believed that all matters raised in the official action have now been complied with, and that

a Notice of Allowance would be appropriate at this time.

Respectfully submitted,
